

MEET US!

INVESTING IN THE FUTURE OF AGRICULTURE AND THE FUTURE OF OUR FAMILY

Hi! We're Matt and Hilary Kollasch. We raise cattle, pigs, chickens and certified organic crops in northern Iowa. Our farm has a special focus on soil health, incorporating regenerative practices into our operation as the platform for all our products.

Everything you see here from the marketing, customer service, crop and food production is done by us.

We are a small family farm with BIG dreams to produce food that is beneficial for us, our soils and our future and can't wait for you to join us!

Have a small farm of your own? We carry leading natural livestock mineral programs, organic fertilizers, soil amendments and livestock nutrition products!
